PROJECTS

captAR | Developer | September/October 2017 | GITHUB: https://github.com/team-copper/captAR

An augmented-reality Capture the Flag game, in which players – divided into two teams – attempt to capture the opposing team's flag.

- Developed on React Native framework with Firebase as the back-end.
- Implemented navigation pages for the iPhone app and worked on setting up player authentication as well as messaging application using Firebase.
- Developed schema for storing game and player data in the Firebase database.
- Set up the redux store to manage all user interactions with the app.

VirtuNotes | Sole Developer | September 2017 | GITHUB: https://github.com/anujp41/VirtuaNotes

iPhone app developed using React Native. Allows to set remainders to visit a given restaurant at various locations.

- Developed on React Native using Expo with this being the first project attempted on this framework.
- Integrated Redux store with the React Native/Expo iPhone app to control user interactions.
- Integrated various npm libraries for rendering native maps and geofencing.

PROFESSIONAL EXPERIENCE

PWC LLP   New York City, NY
Senior Associate   January 2013 – May 2017

- Managed teams of 4-5 junior associates to prepare security-specific valuations for various level 2 and level 3 securities for clients in the hedge fund, banking and other financial services sector clients across corporate debt products, private placements, ABS securities as well as European and Agency RMBS.
- Presented valuation conclusions to senior management and defended valuations in audit reviews.
- Validated reasonableness of inputs used in valuation models provided by clients such as: recent transactions, comparables, DCF inputs, and projected financial information as well as EBITDA and growth rates.
- Consulted a Foreign Banking Organization in the Covered Positions flagging exercise of the entire trading book portfolio in the IHC.
- Received Real Time Recognition awards for exemplary performance during the course of the engagement with the FBO and good performance reviews from the client resulting to promotion as a Senior Associate.
- Responsible for preparing client proposals and presentations to secure regulatory consulting contracts in the financial and marketplace lending sector regarding Credit and Market Risk Rules.
